Flexible Fixed Route

The Flexible Fixed Route combines the benefits of traditional fixed route service and demand response service. Flex is really two types of bus service in one: The bus follows a defined route, picking up and dropping off passengers at designated stops.

Pull the cord to let the driver know you would like to exit the bus at the next stop.

The bus will also “Flex” or deviate off its route. The driver will reroute to locations within 3/4 of a mile of its usual route when a passenger has made a reservation in advance.
